

# Smoking Jokes

Because laughter is the best medicine.

Some are whacky, some are sarcastic, and some are ironic...

But all of them are funny...☺

Let's get started...

It's easy to quit smoking. I already did it three times!

---

People tell me that if you quit smoking, you'll get your sense of smell back.

Really? I live in New York City, folks...

I got news for you: I don't WANT my sense of smell back.

---

I'm a really heavy smoker. I go through two lighters a day...

---

And you can't smoke in any of these coffee places any more. Can't smoke at Starbucks, can't smoke in your corner coffee shop...

But I'm pretty sure coffee was invented by people who were smoking anyways.

And they just wanted to invent something so they can stay up late and smoke even more!

That's my theory. Just ask Columbo, he'll back me up on this one.

---

Trick question:

Why are cigarettes sold at petrol stations when smoking is prohibited there?

.....

Notice displayed on a plane:

No smoking is allowed in the cabin on this flight. There is also no smoking in the lavatories.

If we see smoke coming from the lavatories, we will assume you are on fire and put you out. This is a free service we provide.

.....

I quit smoking because I'm so tired of hearing bad news about cigarettes...

Even when they discover good news, they don't ever publicize it - like the fact that smoking seriously reduces the risk of jogging.

.....

I had been a heavy smoker ever since I was a teenager, but to my own (substantial) surprise was able to quit "cold turkey..."

However, my weight shot up and I felt very self-conscious. Especially when a friend congratulated me on giving up cigarettes, and I replied, "But look at all these added kilos!"

Her reply was one I'll always treasure: "Oh, my dear, you shouldn't worry about that!"

And then she said. "Just think of all the extra years you will have in which to lose them..."

.....

A young girl and mid aged lady are having a smoke together.

Young girl: "I'm so cool, I look really grown up!"

Middle aged lady: "Yes, I'm so grown up, I look ten years older already!"

.....

Helpful hint:

Nicotine patches are fantastic. Just stick one over each eye, and then you can't find your cigarettes...

.....

A nervous-looking guy is standing on the corner of the street, smoking one cigarette after another.

A lady walking by stops and says: "Hey, don't you know that those things can kill you? I mean, didn't you see the giant warning on the box?!"

"That's OK" says the guy, puffing casually. "I'm a computer programmer."

"So? What's that got to do with anything?", she asks.

To which he replies: "We don't care about warnings. We only care about errors..."

.....

You know there is always that ONE guy at work...

You know, the one who suggests that you write down your feelings every time you crave a cigarette...

And all that comes out on paper is: "This guy is driving me crazy."

.....

Trick question:

Why do drugstores make sick people walk all the way to the back of the store to get their prescriptions...

But healthy people can buy their cigarettes at the front....?

Announcement on a plane:

If you feel an irresistible urge to smoke...

There are two smoking sections on this flight, one outside each wing exit.

Also, for our smokers...

We do have a movie in the smoking sections tonight...

Just hold on, let me check what it is...

Oh here it is: The movie tonight is "Gone with the Wind."

I think, in 10 years from now...

Hell's gonna be the only place left where you can still (legally) smoke...

---

Scientifically proven:

When it comes to quitting smoking...

The best method is the last method you try.

---

Anybody who's ever tried to give up smoking knows exactly what I'm talking about. It is the hardest thing you will ever do in your entire life. And people who have never smoked just don't get that.

For instance, my wife will say "I don't understand why you just don't quit. Just put them down and quit."

And I will say, "Baby, I am trying. It is hard."

And she says, "I'm sorry, Bill. I don't understand why you just don't quit."

And I say, "all right. Why don't you quit yelling?"...

Trick question...

Isn't making a smoking section in a restaurant like making a peeing section in a swimming pool?

.....

Doctor: Your health appears to be in such condition that I believe you can reach the age of 80 years.

Patient: "But doctor, I am already 80!"

Doctor: "You see - I told you to quit smoking..."

.....

They have proven - scientifically - that if you quit smoking, it will prolong your life.

What they haven't proved\n yet is that a prolonged life is a good thing...

I haven't seen the stats on that yet.

.....

Classic joke from comedian Norm MacDonald:

I quit smoking and nothing much is different. Except that now I can taste my food. I went to a friend's place for dinner and I was like...

What's this zingy, zangy thing you're serving me here? Never tasted anything so zingy and zangy....

A boiled potato, eh? Wow...

.....

I saw a sign that said "no smoking" in the cinema.

After two minutes I stepped outside and told the assistant, "There's a guy in there smoking a cigarette."

"OK," he replied, following me in. "Let me handle it."

"There he is," I said, pointing to the culprit, " and you've got to caution him or something."

The theatre assistant stopped me and said, "Look, mister, we don't control the actors...."

.....

I quit smoking and now I use gum as an alternative...

It sure is hard to keep it lit, though.

.....

There's a guy who smokes 2 cigarettes together each time I see him.

So I asked him: why do you always smoke 2 cigarettes together?

He said: one is for me, and one is for my brother in prison.

After a while I saw him smoking one cigarette only and so I asked him: Is your brother out of the jail?

He said: no, but I stopped smoking.

.....

Smoking will kill you. Bacon will kill you.

But smoking bacon will cure it.

.....

I think smoking cigarettes has been really good for me.

They convince me to go outside regularly - and get some fresh air.

Did you know...

Smoking cigarettes definitely helps the environment...

Because it kills humans.

---

I recently quit smoking...

But I've been having vivid dreams of smoking again. The upside is it's free with no real life consequences.

The down side is that now I'm addicted to sleep...

---

If second hand smoke is killing that many people...

And nicotine is so addictive...

Then why is no one addicted to second hand smoke?

---

I've been smoking cigarettes for about 25 years now...

I just can't figure out how I haven't gotten addicted yet.

.....

People often tell me I have no will power or self-control whatsoever...

Rubbish I say.

I've quit smoking lots of times...

.....

You can't smoke in a restaurant in Los Angeles, which is somewhat ironic...

Especially when you consider the fact that you can't breathe outside a restaurant in Los Angeles.

.....

I gotta quit smoking, doctor's orders.

And I gotta quit the drinking, court orders.

.....

Did you know?

Nicotine gum is just like regular gum, except it comes with side effects like dizziness and nausea...

---

You know you are a serious smoker when...

When your doctor tells you that you should quit, and you begin to think that you really ought to find a different doctor.

---

I quit smoking once for six years after buying a forty two cent box of toothpicks...

But after six years they were pretty gross, so I started smoking again.

---

Whacky dictionary definition:

CIGARETTE: A pinch of tobacco rolled in paper with fire at one end and a fool at the other!

---

Overheard on the street...

"You know, lady, you don't actually smoke. The cigarette does all the smoking, and you are just the sucker!"

---
